POSITION SUMMARY

Under general supervision assumed responsibility and accountability for a group of patients during a designated time frame. The nurse provides care consistent with the policies, procedures and standards of care at St. Rose Hospital.

ESSENTIAL DUTIES

Nursing Process

1. Assessment
   Performs systematic assessment and data collection focusing on the physiological, cultural, psychological, spiritual and cognitive status of the patient.

2. Planning
   Evaluates, develops and prioritizes a plan of care that is individualized and goal directed based on nursing diagnosis, patient needs and standards of care.

3. Implementation
   Provides safe therapeutic care in a knowledgeable, skillful and continuous manner involving all members of the health care team.
   Demonstrates competence in the care of pediatric, adolescent and geriatric patients (when/if assigned to these patients) relative to determining each patient’s age-related and other physical, psychosocial and cultural needs and carry out patient care activities.

4. Evaluation
   Assesses and evaluates patient plan of care and teaching needs. Documents effectiveness and revises plans as needed.
Professional Behavior
1. Confidentiality and Legal Issues
   Demonstrates awareness and sensitivity to legal issues and patient rights in a confidential manner.

2. Professional Accountability
   Maintains current California licensure and service specific certifications while demonstrating an awareness of responsibility and accountability for own professional practice based on the Nurse Practice Act and hospital standards of care.

3. Leadership and Problem Solving
   Supervises and delegates care given by members of the health care team while promoting professional growth and positive learning experiences.

Professional Performance
1. Knowledge Base and Technical Skills
   Demonstrates sound knowledge base and actions within patient care utilizing hospital and service specific standards of care.

2. Working Relationships
   Formulates and uses effective working relationships with all health care team members, patients and significant others.

3. Communication
   Demonstrates effective communication skills utilizing lines of authority appropriately. Performs clerical and computer entry functions when needed, based upon service’s needs.

Other Duties
Performs other job-related duties as assigned by the Clinical Nurse Supervisor/Manager.
